

SPECIFICATION

We supply Borax that is procured from some of the most reliable and well known vendors. A boron compound in nature, these are used in the manufacturing process of detergents, cosmetics and enamel glazes. Further, these can also be used for the production of buffer solutions in biochemistry, as a fire retardant, as an anti-fungal compound for fibreglass, as an insecticide, as a flux in metallurgy and as a precursor for other boron compounds.

Uses:

1. Fused products (glass, glass fibre ceramics, frits, glazed, porcelain enamels).
2. As fluxes and metallurgical operation (welding and brazing steel industry (paste fluxes, soldering fluxes).
3. Dishwashing products, soaps and detergents.
4. Lubricants, grinding wheels, adhesives, rust inhibitors.
5. Fertilizers as micronutrients.
6. Leather.
7. Boron chemicals
